LUMBER AND THE TARIFF.

The lumber business is among the important industries which the Mills bill attacks. The following figures from the United States census of 1880 will give some idea of the magnitude of this business in its second stage, that of sawing lumber after the logs are out and have reached the mill. In this proportion of the lumber business there were engaged in 1880, 35,798 establishments, with a capital of \$181,182,122. They employed 147,550 hands, to whom were paid wages amounting to \$41,845,974. The value of logs used was \$139,330,869, and of mill supplies \$3,318,510 making the total value of materials used \$142,649,385. The product was 18,091,355,000 feet of lumber, board measure, 1,761,788,000 feet, 5,565,046,000 shingles, 1,248,226,000 staves and 146,323,000 sets of heading, with a total value of \$233,278,729. Thus for the lumber in the rough, the aggregate value of which is greatly enhanced when the material is trimmed out to plain stuff, sash, blinds and ornamental work.

There are no complete figures for the whole country of the product for any year since 1880. But in the northwestern states of Michigan, Wisconsin, Iowa and Minnesota, very accurate figures have been obtained from year to year through the newspaper enterprises. In 1880 the lumber product of these states was 5,631,295,000 feet; in 1887 it had increased to 7,797,916,784, an increase of nearly 40 per cent. In the same period the output of shingles increased from 2,972,912,100 to 4,118,466,770, or 38 per cent.

In the same period the lumber cut of the eastern states, which is not a very important part of the whole, fell off, while that in the south and Pacific states was greatly augmented. In North Carolina, Georgia, Louisiana, California and Oregon especially, the cut was enormously increased. It is safe to say that the aggregate lumber cut of the country in 1887 was 40 per cent greater than in 1880.

All the prominent high taxers of New Lisbon were present, but the ringing eloquence of Doe and his square and teeth were too hot for them and they left the hall in a body during the most scholarly part of his address. He challenged them to ask him questions. He challenged them to dispute his statements, but they failed to respond. New Lisbon's voice is still for war.

The Gazette is glad to receive of Janesville's young men a demand to the front, although he is a democrat. It is mainly for all young men to come to the front. But there is something in that dispute that will strike the readers rather queer. It is his address was "an eloquent, instructive and convincing one," how did it happen that it was so ringing in his eloquence as to drive people from the hall? An eloquent, instructive and convincing speech or address, will keep people in their seats; but we never before heard of one being so hot in eloquence as to drive "all the prominent high taxers" out of the hall in a body during the most scholarly part of the address. We would presume that Mr. Doe went to New Lisbon to speak converting words to the "prominent taxers," if he failed and drove them from his presence, the misfortune is to be regretted, and this speaker has our sympathy.

PROTECTION TO LABOR.

"The wage workers of no other country on earth have the same advantages or receive as high as those in the United States. Their earnings are fifty per cent greater than in any free trade country."—Janesville Gazette, Sept. 20, 1888.

"Unquestionably the inequalities in the wages of English and American operatives are more than equalized by the greater efficiency of the latter and their long hours of labor."

Will the Gazette please rise and explain?—Recorder.

There is another statement that the democrats are trying to oblige to Mr. Blaine in his testimony before the labor committee in 1881: "That Lancashire, England, workmen were paid \$8 per week for nine hours work per day, while in Massachusetts they were paid only \$6.80 for ten hours work, and in England they were only required to make 720 yards of cotton cloth in 9 hours, and in Massachusetts they made 1,200 yards in ten hours."

Neither did Mr. Blaine say that, nor anything like it.

The tidal wave seems to be the most conspicuous in New York. The plurality for Harrison and Morton is confidently estimated at all the way from 20,000 to 30,000; and, as regards the governorship, it is believed that Warner Miller will be elected by not less than 50,000.

The condition that comforts Mr. Cleveland is 248 electoral votes for Harrison against only 153 for himself.

LEVI'S LETTER.

Candidate Morton Accepts the Honor Conferred Upon Him.

FULL TEXT OF HIS LETTER.

The Party Platform Speaks His Views on public Protection Involved in the Campaign—Protection Supported—Tariff Revision Favored.

MR. MORTON ACCEPTS.

New York, Oct. 2.—Hon. L. P. Morton has written the following letter of acceptance:

"HARRISVILLE, N. Y., Oct. 2, 1888.—Hon. J. M. Blaine and others, Gentlemen:—In making formal acceptance of my nomination as the Republican candidate for the Vice Presidency, I desire to express my grateful appreciation of the confidence reposed in me by the convention of the State. As presiding officer of the Senate, and in certain contingencies a participant in the legislation of Congress, I am fully aware of the importance of the duties which I am about to assume, and I feel that I am called upon to discharge them with the same conscientiousness and devotion as I have shown in the discharge of my former duties."

"The pressing reason given for once again trying the old experiment of a revenue tariff without protection as a motive or end is that the present tariff is producing, and is producing a surplus in the Treasury. But it is not easily visible to the naked eye that the National income to the National Government is not without surplusing or even overburdening the industrial system which has brought untold advantages to the entire country."

"Admitting that the present tariff by lapse of time and the large expansion of trade which it has stimulated needs revision, it is not wise to make it a pretext for a tariff revision which would be a step toward the destruction of the protective system."

"The Republican platform proposes a disavowal of the policy of protection, and a policy that best helps the whole world by the example of the great, growing, powerful Nation founded on the equality of every one before the law."

WHEAT GOES HIGHER.

The Market at Chicago Still Feverish—December Wheat Closes at \$1.03 1-8 Bid.

Chicago, Oct. 2.—The condition of things "change" is still feverish in the wheat market. Each day has its own features. The excitement kept buying prices bobbing about, running high and low. Big traders curbed their transactions for fear of driving those with whom they have contracts to the wall, and thereby losing their profits. When the board met it was with difficulty that the official reporter could get within one cent of the correct prices on any future at the opening, so great was the confusion in the pit.

When the first prices were named in the pit the bears seemed to lack nerve. October flew up to \$1.07, December up to \$1.03 and March to \$1.06, an advance of about 3 cents in less than five minutes. These prices dropped back 1 cent, and again went up 1/4 of a cent, and for the rest of the forenoon December bobbed between \$1.03 1/2 and \$1.04 1/2. Markets at New York, Duluth and elsewhere were higher, and the crowd went in a condition to accept any sort of an advance on prices here on short notice.

No failures were announced up to noon, although they were expected. The report that the Traders' Bank was in the hands of a receiver caused some nervousness. It was stated on the floor that the bank was connected in any way with the speculation, but the mere fact that there was something the matter was sufficient to cause a great deal of talk.

THEY UPHOLD THE DECISION.

The Supreme Court Stands by the Lower Court in the Kellogg Nichols Case.

CHICAGO, Ill., Oct. 2.—The Supreme Court has handed down an opinion in the Kellogg Nichols case, expressing robbery, or the case of Watt vs. The People, affirming the decision of the court below. The opinion is by Justice Bailey, of Rockford, and is the first document from him since his election to the Supreme Court. It is a voluminous document and very conclusive in its decision. The principal point in the case claimed by the defense was the question of jurisdiction, claiming that it had not been established at the trial that Kellogg Nichols was killed in Grant County. Consequently that court had no jurisdiction. The Supreme Court decides that the Grundy County criminal did have jurisdiction.

LOST AT SEA.

News Just Received of a Collision Between Vessels on August 25, in Which Twenty-three Lives Were Lost.

New York, Oct. 2.—It has just been learned that the British ship Earl Wemyss, from San Francisco May 25 for Queenstown, and the ship Ardenchapel, which left Liverpool July 31 for Calcutta, sailed at sea off Pernambuco on August 25. The Earl Wemyss, commanded by Captain Colquhoun, his three children and nineteen of the crew were drowned. The Ardenchapel was badly damaged, and several of her crew deserted and took refuge in the life-boats of the Earl Wemyss. Captain Colquhoun and several of the crew of the Wemyss also took to the life-boats and were saved, all of the survivors being picked up by the ship Greenwood from Manila, which will arrive at New York in a few days. The Ardenchapel put into the port of Fernando de Noronha for repairs.

A Fireman Drowned.

CHICAGO, Oct. 2.—At 11 o'clock last night the steam-barge John Brock, lying at the foot of this street, was blown overboard by a fire, and an alarm was turned in. Hook and Ladder Company No. 3 was first to respond. A ladder was placed against the side of the barge, and three firemen mounted it. The weight of the vessel, however, was too great, and one of the men, Matthias Kautern, fell into the river between the barge and the dock and was either drowned or is still missing. The other two jumped and escaped. The fire was extinguished after causing a trifling damage.

Served His Time.

DEZLIN, Oct. 2.—Mr. Patrick J. O'Brien, member from North Tipton, was released from Kilgenny jail yesterday. His sentence having expired. He is much worn and emaciated. A large crowd awaited his release, and upon his appearance he was given an enthusiastic reception. A number of priests were among the crowd.

Suddenly Called.

New York, Oct. 3.—Mr. Richard Allison Blair, president of the American Surety Company at 160 Broadway and Second Assistant Postmaster-General from May 5, 1881, to February, 1884, died suddenly Monday evening at his home, 44 West Twentieth street, of apoplexy.

The petition of Eliza Hickey for the appointment of a guardian of the estate of Richard and J. Hickey, late of the city of Janesville, in said county deceased. A. D. 1887.

By the Court. J. W. SAILE,
County Judge.

SEP 28 1888

AN ORDINANCE to amend an ordinance entitled "An Ordinance in relation to horses, vehicles and railroad cars standing in streets," as follows: *Be it enacted by the Board of Janesville, in said county, as follows:*

"Section 1. That any ordinance entitled 'An ordinance in relation to horses, vehicles and railroad cars standing in streets' is hereby amended by striking out the words 'and vehicles standing in streets' and inserting in lieu thereof the word 'fired,' so that the ordinance shall read: 'Horses, vehicles and railroad cars standing in streets'." "Section 3. No railroad corporation or person in charge of any locomotive engine, railroad car or train shall allow any such engine or train to stand in or upon any street or public place in the city of Janesville, for more than five consecutive minutes; and if so, the city of Janesville at any time thereafter, in five consecutive minutes.

"Section 4. Any person who shall violate the provisions of this ordinance shall be fined in the sum of five dollars and be in force from and after its passage and publication.
